

AMENDMENTS TO THE SPECIFICATION

Please replace the figure descriptions beginning at page 4, line 17, and ending at page 5, line 14, with the following rewritten figure descriptions:

-- Fig. 1 shows a cross-sectional view of the member having an I-shaped cross-section.

Fig. 2 (a)-(c) show a cross-sectional view of the members each having H-shaped, C-shaped and L-shaped cross-sections.

Fig. 3 (a)-(d) show a cross-sectional view of the members each having I-shaped, H-shaped, C-shaped and L-shaped cross-sections.

Fig. 4 shows a schematic view of cantilever method for measuring vibration-damping property.

Fig. 5 shows a free vibration wave profile.

Fig. 6 (a)-(b) show laminate structures of the unidirectional prepregs of Examples 1 and 2.

Fig. 7 (a)-(b) show a laminate structure of the unidirectional prepreg of Example 3.

Fig. 8 (a)-(b) show a laminate structure of the unidirectional prepreg of Example 4.

Fig. 9 shows comparison of production costs for various kinds of I-shaped beams.

Fig. 10 (a)-(b) show a laminate structure of the unidirectional prepreg of Comparative Example 1.

Fig. 11 (a)-(b) show a laminate structure of the unidirectional prepreg of Comparative Example 2.

Fig. 12 (a)-(b) show a laminate structure of the unidirectional prepreg of Comparative Example 3. --
